

Activity Booklet

Saturday 12/09/2020

Introduction

The UKCC weekly activity booklet will be sent out every Saturday morning and contains chess puzzles and activities for a range of ability levels.

Players are encouraged to at least try and complete the page most relevant to their ability level (see table below). However you are welcome to tackle the entire booklet! At the end of the booklet there are some more general puzzles / activities for everyone to enjoy

Solutions

Solutions will be posted alongside the following weeks activity booklet and there will also be a video solution guide.

Please email us any feedback or ideas for future puzzles!

Ability Levels

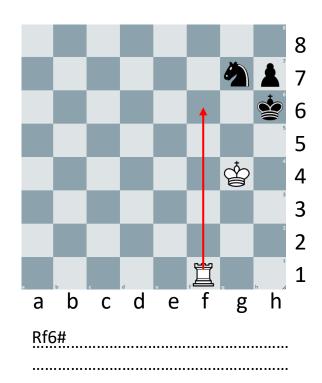

Club	Description	Approximate ECF Grade *		
DECA – Club	Complete beginners and those with an incomplete grasp of the rules	Ungraded		
MEGA – Club	Know the rules but little grasp of planning what to do beyond capturing and quick checkmates. Little to no tournament experience	0 – 59		
GIGA – Club	Players with some tournament experience looking to "level up"	60 – 99		
TERA – Club	More experienced players who have won or placed highly in local competitions	100 – 129		
EXA - Club	Very experienced players with success at National Level events	130 – 159		

Example

Below are examples of how you might write your solution to a puzzle presented in the booklet. Or you might prefer to just solve them in your head – completely up to you!

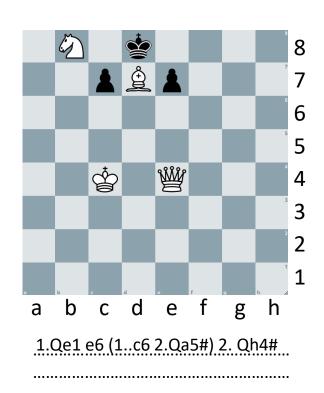

Q: Can you find checkmate in one for white?

Here, because the solution is only one move, you might draw arrows on the board or you can use the lines below to answer – or both!

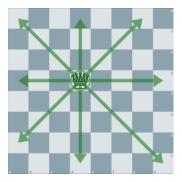

Q: Can you find checkmate in two for white?

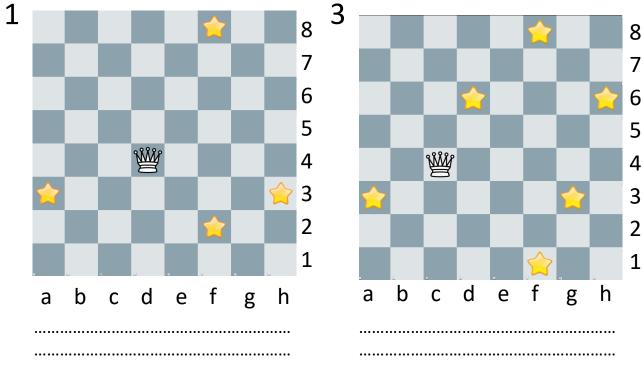

Here, the solution is a bit (OK a lot!) trickier and requires consideration of multiple variations. If you are familiar with coordinates, it is probably best that you write your answer out as shown.

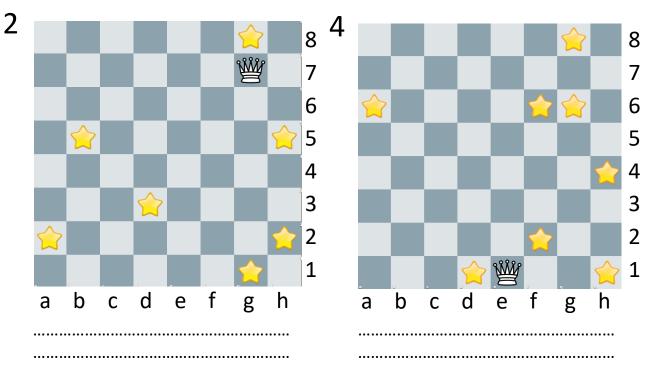

Deca

The queen can move in straight lines and diagonals as many squares as it likes as shown on the right. A queen captures a piece by moving on top of it. See if you can solve the 'hungry queen' puzzles below, try and capture all the stars in as few moves as possible. Write down how many moves it takes you.

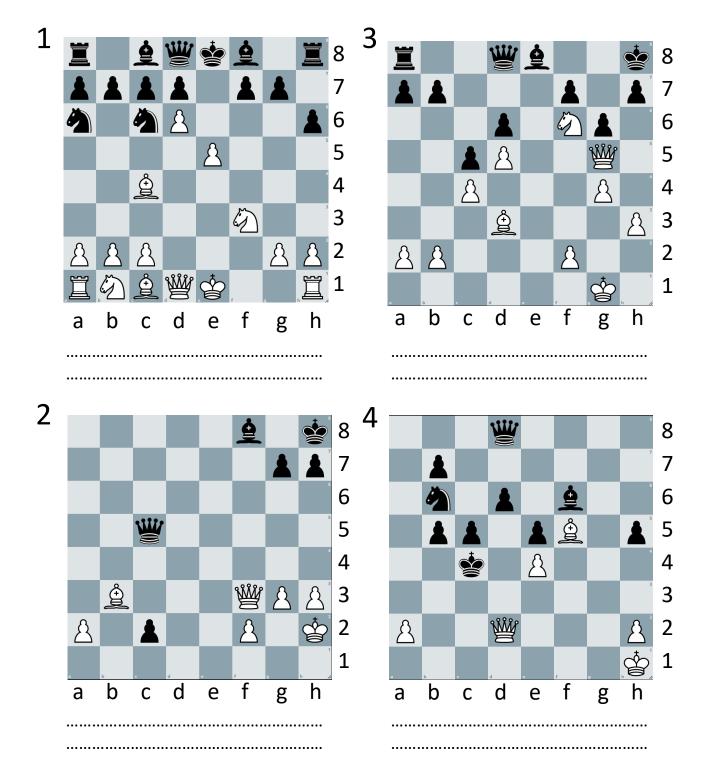

Mega

In the diagrams below it is white play. Your task is to find a move which threatens checkmate on the next move. Black either cannot parry the threat or it will cost them a lot of material to do so!

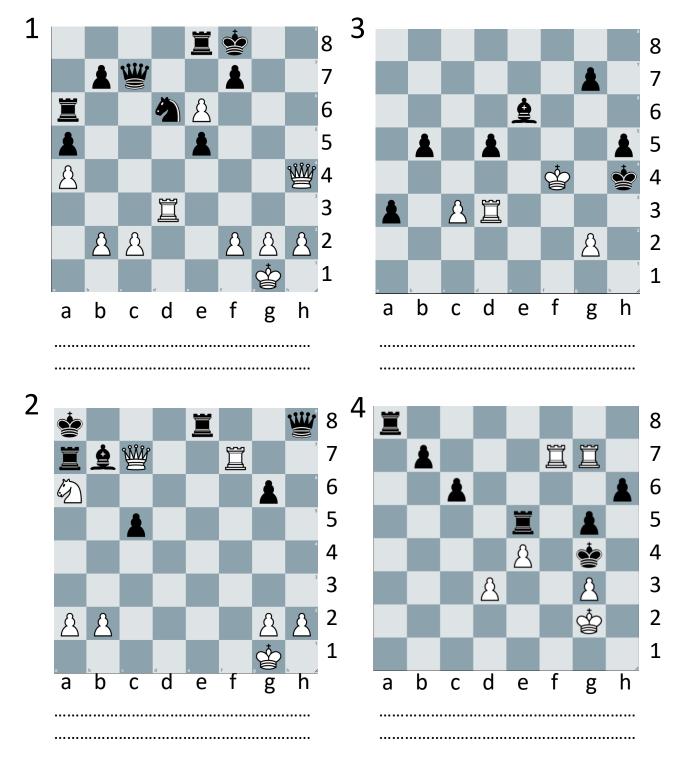

Knowing how to create checkmating threats will make you a much more dangerous opponent!

Giga

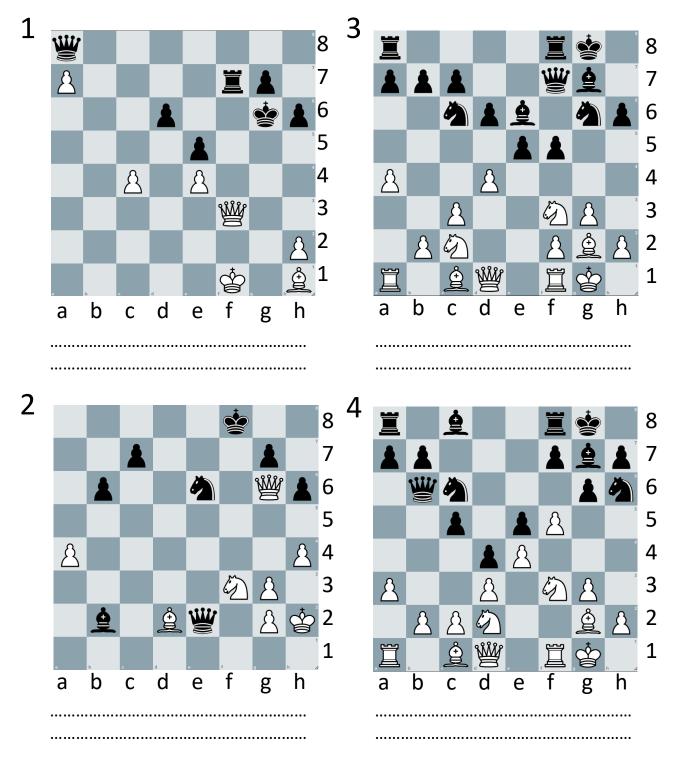

In the diagrams below it is white play. You have to lure a defender into the escape path of the black king to create a type of "smothered mate"!

Beware – puzzle 4 is a mate in 3 (the others are mate in 2)!

Tera

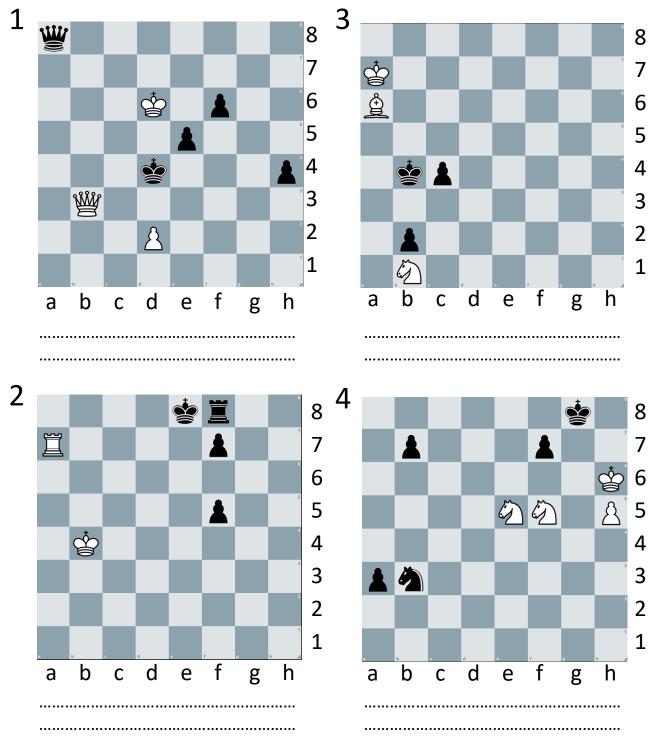

In the diagrams below it is white play. Your task is to use the power of a deadly discovered attack to win material. Remember: don't just choose the first move that looks good...calculate and be sure to consider alternatives.

Exa

The following positions (all white to play) are examples of "endgame mating nets". White has to create a mating net that either leads to checkmate or decisive material gain.

These are seriously tough – try and write down the full solution. Don't worry if you cannot solve them – you will improve a lot just by trying.

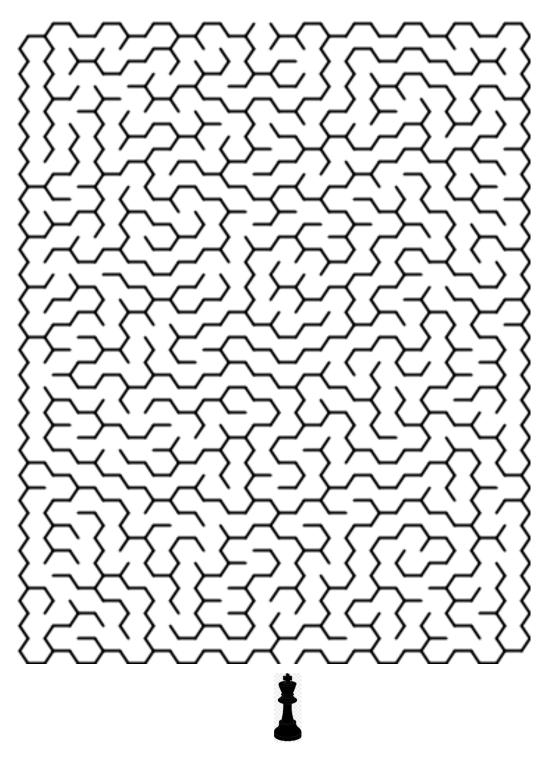

Fun Puzzles

Over the next couple of pages you will find some more casual puzzles starting out easy and getting much harder!

Maze - Easy

Fun Puzzles

Word search - Moderate

Fun Puzzles

No Threat Puzzle (Source: bridles.com) - Hard

Place the entire black army on the board in such a way that not a single piece on the board (either white or black) is under attack.

Seems impossible – yet strangely it isn't...

Take a look at...

If you enjoyed solving the checkmate and tactics puzzles today you might enjoy WFM Sarah, and GM Danny King's Chessable course on tactics!

In the course you can find lots of puzzles as well as engaging videos and most importantly leaderboards!

You can find out more online or using the link below.
